

ALICE VALENÇA DE LORENCI

+44 07386 797481 | adelorenci@gmail.com | linkedin.com/in/alice-valenca-de-lorenci | London, UK

EDUCATION

PhD in Mathematics

2025-2028

Imperial College London

London, UK

- Ergodic theory and complex network dynamics
- President's PhD Scholar
- Scientific advisers: Sebastian van Strien, Matteo Tanzi

Master by Research, Mathematics and Applications | GPA: 18.7/20.0 | Highest Honours

2023 - 2024

ENS Paris-Saclay

Gif-sur-Yvette, France

- Master thesis: Channel-Invariant Self-Supervised Learning

Engineering Degree (Dual Degree) | GPA: 4.0/4.0

2022 - 2024

Télécom Paris, Institut Polytechnique de Paris

Palaiseau, France

- Awarded excellency scholarships from both the University of São Paulo and Télécom Paris to pursue the Dual Degree program.

Computer Engineering Degree | GPA: 9.7/10.0 | Rank: 1st of 63

2019 - 2024

University of São Paulo (USP)

São Carlos, Brazil

- Primary home institution for the Dual Degree program with Télécom Paris.

TALKS

1. Workshop on Random Dynamical Systems and Network Dynamics at IMPA (2026, Brazil)

EXPERIENCE

Research Assistant

2024 - 2025

Institute of Mathematical and Computer Sciences, University of São Paulo (USP)

São Carlos, Brazil

- Researching Complex Systems, with special interest in the Ergodic Theory point of view.
- Research scholarship from the São Paulo Research Foundation (FAPESP).
- Scientific adviser: Tiago Pereira.

Research Scientist Intern

2024

Fundamental AI Research (FAIR), Meta

Paris, France

- Conducted research on Channel-Invariant Self-Supervised Learning for cellular microscopy images in collaboration with researchers from the University of Wisconsin-Madison and Columbia University.
- Scientific advisers: Camille Couprie and Piotr Bojanowski.

Student Researcher

2019 - 2022

Institute of Mathematical and Computer Sciences, University of São Paulo (USP)

São Carlos, Brazil

- Worked on Compressed Sensing in the context of system dynamics reconstruction. This involved studying advanced matrix theory (P. Lancaster), as well as Dynamical Systems theory, more specifically, circle dynamics.
- Research scholarship from the Institute Serrapilheira.
- Scientific adviser: Tiago Pereira.

Volunteer Education Team Member

2021 - 2022

Group of Women Students in STEM (GRACE), University of São Paulo (USP)

São Carlos, Brazil

- Proposed and co-lead a team to develop a course on programming applied to robotics aimed at girls from public schools.
- Worked as a mentor on the Technovation Summer School for Girls 2022.
- Awarded a scholarship for my contributions, funded by the Social Inclusion and Diversity at USP program.

Mathematics Study Group Lecturer

2019

Institute of Mathematical and Computer Sciences, University of São Paulo (USP)

São Carlos, Brazil

- Gave seminars on operator theory in finite-dimensional vector spaces (T. Kato) and mathematical analysis (W. Rudin).

HONOURS AND AWARDS

Institute of Engineering Award – Outstanding Students, Brazilian Institute of Engineering

2025

- National award recognising outstanding graduating students for their academic performance, research projects, and technical and scientific contributions in their fields.

Distinguished Student Award, Brazilian Computer Society (SBC)

2025

- National award granted to students who demonstrate outstanding academic performance, research excellence, and significant contributions to university outreach activities.

CREA-SP Certificate of Academic Merit, São Paulo Regional Council of Engineering and Agronomy 2025

- Awarded in recognition of the best academic performance in the Computer Engineering cohort.

CAPES University Talent Award, Brazilian Ministry of Education | 2nd of 10,848 2020

- National academic distinction award that recognises excellence in academic performance of first-year undergraduate students.

Academic Distinction Award, Institute of Mathematical and Computer Sciences, University of São Paulo (USP) 2019

- The award honours the top freshman Computer Engineering student who has exceptionally distinguished academic records.
